

How to Play

When the host starts the game, you will get assigned a **character** or **event** from “The Legend of Heroes: Trails” Series; no two players get the same one.

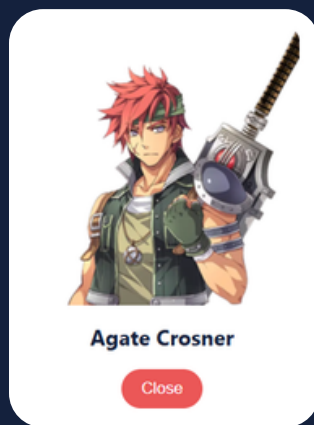

You'll be able to know what character/event your friends have! But yours will be a secret... to you at least.

Hop on a Discord call and start giving each other clues about what's above your heads. Tap any image to zoom in for a closer look! (Just in case you want to admire their beauty).

Instructions

Stick to **yes or no questions** when you're guessing. It keeps things fair and makes people actually describe the character or event instead of just naming it outright.

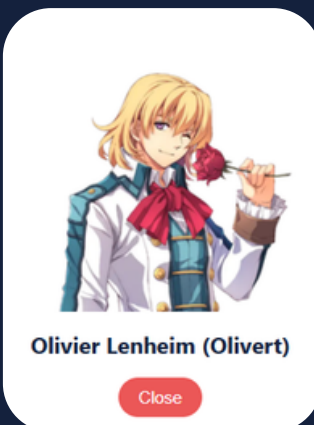

Q: Which Faction is this Character from?

Q: Would I trust this person with my children.

Try to avoid questions like "Is this character from Cold Steel" or "Does this event occur in Daybreak." Those kinds of questions narrow things down instantly and skip past all the fun guessing.

Q: Is this Character from Sky?

Q: Would I hit this character if i saw him?

Room Setup

The room creator picks a spoiler cutoff: the most recent game everyone in the group has finished. Only content from **that game** and **earlier** will show up; be **careful** during selection!

Spoiler cutoff: content up to and including this game will be used.

FC

SC

3RD

KAI

The host picks which categories to pull from (characters, events, **or both** if you're feeling chaotic). Share the room code with your friends so they can join! (2 to 5 players total).

Characters

Events

Locations (coming soon)

Forget about the locations I am too lazy to make them. They're never coming.

Final Notes

Lastly: the MOST IMPORTANT RULE OF ALL... Have lots & lots of fun! Don't cause wars.

DAMN IT FALCOM I HAVE LOST MY SANITY.

Bruh. I have lost mine marbles.

Don't forget this game is only as fun as YOU make it to be! Feel free to bully each other, but be cute about it and don't upset your friends.

Huge thanks to Kuro for helping me make the avatars peak, and for smxydante and Redyeti for helping me test the game!
